apel	10	20000.00	<button>Delete</button>
apel	10	20000.00	<button>Delete</button>

Struktur Folder (xampp -> Inventory -> htdocs)

Tampilan Database Localhost phpMyAdmin

The screenshot displays the phpMyAdmin web interface. On the left is a sidebar with a tree view of the database structure, including 'information_schema', 'inventory', 'inventory_db', 'mysql', 'performance_schema', 'phpmyadmin', and 'test'. The main panel shows the 'items' table within the 'inventory_db' database. A yellow banner at the top indicates 'Showing rows 0 - 5 (6 total. Query took 0.0004 seconds.)'. Below this, the SQL query 'SELECT * FROM `items`' is shown. A toolbar with icons for 'Browse', 'Structure', 'SQL', 'Search', 'Insert', 'Export', 'Import', 'Privileges', 'Operations', 'Tracking', and 'Triggers' is visible. The table data is presented in a grid with columns: id, name, quantity, price, and created_at. Each row has interactive icons for 'Edit', 'Copy', and 'Delete'. At the bottom, there are options for 'Check all', 'With selected', 'Edit', 'Copy', 'Delete', and 'Export'. The footer includes a 'Task View' tab and a 'Console' section.
